

Village of Richmond Steering Committee Strategic Direction Working Session

Location: Richmond Public Library – Downstairs Meeting Room
Date: June 4th, 2008
Time: 7PM – 9PM

The comments and ideas received from the April 2008 Open House and Visioning sessions have been compiled into a series of visionary principles. These principles will form the basis for the development of the Richmond Village Plan. A draft version of these principles has been presented to the Village of Richmond Steering Committee for comment and additional input.

This meeting will be structured as a small group working session for the Committee and other interested residents to provide input and comment on the draft principles. The input received in these small working groups will be used to refine the visionary principles document that will be presented for Committee approval at the June 25th regular meeting.

This event is open to everyone and the public is encouraged to attend. Residents will be free to join a small working group of their choice and provide detailed input and comments on the proposed strategic vision statements for the village.

Agenda

- 7:00PM** Welcome and Overview
